+2349095227612

I am on an intermediate level in theses programming languages: Python, Java, JavaScript, and MySQL. I am also good at front and back-end development using HTML, CSS, Bootstrap, JavaScript, EJS, express.JS, MongoDB and NodeJS. While learning these tools, I created pet projects to help me get an in-depth knowledge of these tools. These projects are available in my github repository.

Work Experience

Dorm Secretary General
ABTI American University Of Nigeria -
Yola September 2019 to Present

I work as the Secretary-General of my dormitory as I undertake my undergraduate degree in software engineering. The tenure lasts for a complete academic calendar year. My role is to organize meetings with the dorm executives, note down key points in our meetings, making sure all decisions carried out during our meeting are implemented and carrying out other duties to make the dormitory comfortable for the student.

Education

Undergraduate in Software Engineering
American University Of Nigeria - Yola
September 2017 to 2021

Skills

Full Stack Web development using HTML, CSS, Bootstrap, JavaScript, EJS, Expressjs, MongoDB and NodeJs (6 months)
